Our professional dental cleaning includes

- A comprehensive physical and oral exam
- Preanesthetic health screen
- Closely Monitored Anesthesia
- Oral examination of each tooth while under anesthesia
- Scaling above and below the gum line to remove plaque and tartar with an ultrasonic scaler and hand instruments
- Polishing with a fine grit polish to smooth any minor defects on the tooth surface
- Irrigation to rinse and dry the mouth with pressurized water and air, which removes diseased tissue and plaque from the mouth
- Discharge and Home-care instructions
- Grade 3 & 4 Cleanings and Extractions require additional fees
